# 1 Introduction

## 1.1 Structure of the cultural heritage appendices

1.1.1 The cultural heritage appendices for the Balsall Common and Hampton-in-Arden area (CFA23) comprise:

- baseline report (Volume 5: Appendix CH-001-023);
- a gazetteer of heritage assets (this appendix);
- impact assessment (Volume 5: Appendix CH-003-023); and
- survey reports (Volume 5: Appendix CH-004-023).

1.1.2 Maps referred to throughout the cultural heritage appendices are contained in the Volume 5 Cultural heritage map book.

## 1.2 Scope and coverage

1.2.1 This appendix provides descriptive information for the Balsall Common and Hampton-in-Arden area CFA23 relating to identified designated and non-designated heritage assets that lie within the following study areas:

- designated assets: All designated assets within 2km of the centre line of the Proposed Scheme are listed. Detailed descriptions of assets and their settings are provided only for those designated assets where field study has determined a potential for impacts on setting or significance to arise; and
- non-designated assets: Detailed descriptions of all assets and their settings are provided for those assets located within the land required to construct the Proposed Scheme and within the 500m buffer zone.

1. .... + here appropriate, assets have been grouped together to assist in an understanding either of their context e.g. collecting together archaeological intervention s that relate to a common location or of their setting and significance e.g. collecting together historic buildings either within specific conservation areas or within the same streetscape context.

# 2 Information supplied

2.1.1 For each asset or group of assets the following information has been provided:

- unique identifier: e.g. BHA001;
- map reference: the gazetteer should be viewed alongside its associated map series (Vol 5, Maps CH-01-151b - CH-01-153, CH-02-151 - CH-02-152). The map reference comprises the map sheet series, such as 'CH-01-153', and a location reference within the map, such as 'E4' within the sheet;
- asset type: simple classification of asset type using following classes:
  - ancient woodland;

- archaeology;
- built heritage;
- historic hedgerow;
- historic landscape; and
- settlement.

- name: either name used in designation record(s) or other identifiable name;
- description: description of the asset, its significance and, where relevant, its setting;
- period: primary period relating to asset using period classifications from Appendix CH-001-023;
- designation: If applicable, key designation or designations for some groups;
- grade: where applicable, grade of any designated assets;
- significance / value: score based on Scope and Methodology Report classifications i.e. high, moderate, low, or not significant; an 'unknown' category has been introduced in respect of Light Detection and Ranging (LiDAR) and aerial photographic investigation features, in instances where there is presently insufficient evidence to determine significance;
- National Heritage List reference (NHL): NHL reference for designated assets, where relevant; and
- Historic Environment Record (HER) reference: HER reference, where relevant.

# Gazetteer

Table 1: Gazetteer of heritage assets for CFA23

Unique identifier	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance / value	NHL ref	HER ref
BHA001	CH-01-151b - F10	Archaeology	Medieval and post-medieval fields	Feature identified through aerial photography interpretation. Eroded ridge and furrow with possible evidence of additional steam ploughing. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval and post-medieval	Non-designated	N/A	Low	N/A	N/A
BHA002	CH-02-151-H7	Built Heritage	Image House	18th century farmhouse house of two storeys. Red brick with good survival of fixtures. The building remains within its farm context and the agricultural setting remains legible.	Post-medieval	Listed Building	II	Moderate	1075939	N/A
BHA003	CH-02-151-H7	Built Heritage	Barn at Image House Farm	Late 16th century timber-framed barn adjacent to Image House. The barn forms part of the farm complex and retains its agricultural setting.	Post-medieval	Listed Building	II	Moderate	1054848	N/A
BHA004	CH-01-151b -E2	Archaeology	Medieval fields	Feature identified through aerial photography interpretation. Eroded ridge and furrow. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA005	CH-01-151b -E1	Archaeology	Military structures	Feature identified through aerial photography interpretation. Possible temporary houses or military structure. Significance lies in its archaeological and evidential value and the information it can provide for military use of this landscape in the early 20th century. It has historic value in the link to other WWI and WWII sites within the study area and adds to the historic narrative.	20th century / modern	Non-designated	N/A	Low	N/A	N/A
BHA006	CH-01-151b -E3	Archaeology	Medieval fields	Feature identified through aerial photography interpretation. Extant ridge and furrow. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA007	CH-01-151b - E9	Archaeology	Medieval fields	Feature identified through aerial photography interpretation. Eroded ridge and furrow with some ditches that may be farm access ways. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA008	CH-02-151-G4	Built Heritage	West's Cottage	17th century timber-framed cottage occupying a prominent corner position. The cottage lies within established gardens and retains its village setting.	Post-medieval	Listed Building	II	Moderate	1054833	N/A
BHA009	CH-01-151b -C5	Archaeology	Medieval fields	Feature identified through aerial photography interpretation, eroded ridge and furrow. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape during this period. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA010	CH-02-151-G7	Built Heritage	Berkswell Windmill	Early 19th century windmill with red brick tower. The structure has recently been repaired and the new sails form a prominent feature in the landscape. The setting of the windmill has been affected by new housing to the south.	Post-medieval	Listed Building	II*	High	1054782	N/A

Unique identifier	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance / value	NHL ref	HER ref
BHA011	CH-01-151b -C9	Archaeology	Eroded ridge and furrow east of Balsall Common	Feature identified through aerial photography interpretation. Eroded ridge and furrow. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape during this period. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA012	CH-01-151b - C2	Archaeology	Medieval fields	Feature identified through aerial photography interpretation. Eroded ridge-and- furrow. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA013	CH-02-151-F4	Built Heritage	Holly House	18th century two-storey red brick house located within the hamlet of Beechwood. The house is set within landscaped gardens.	Post-medieval	Listed Building	II	Moderate	1075938	N/A
BHA014	CH-01-151b -D5	Built Heritage	Beechwood Farm and barn	Beechwood Farm, Hodgetts Lane, Berkswell, first mentioned 1781; barn has date-stone of 1825 with name John Cranstone. The former farm is now divided into separate dwellings, with formal gardens to the north and east, alongside the West Coast Mainline railway. Enclosing the site to the west is the extant embankment of the former Stonebridge Railway.	Post-medieval to 20th century / modern	Non-designated	N/A	Low	N/A	MSL4185
BHA015	CH-01-151b - D1	Archaeology	Medieval fields	Feature identified through aerial photography interpretation. Eroded ridge and furrow. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA016	CH-01-151b -C7	Archaeology	Medieval fields and eroded ridge and furrow south of Truggist Lane	Feature identified through aerial photography interpretation. Eroded ridge and furrow located east and south-east of Balsall Common. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA017	CH-01-151b -C4	Archaeology	Ridge and furrow	South of Berkswell Grange, Carol Green, Berkswell. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	MSL10904
BHA018	CH-02-151-F4	Built Heritage	Canterbury House	Two- storey red brick 17th century house located within the hamlet of Beechwood. The house retains its historic setting set back from the road within extensive gardens.	Post-medieval	Listed Building	II	Moderate	1367082	N/A
BHA019	CH-01-151b -B4	Archaeology	Medieval fields around Moat House Farm	Feature identified through aerial photography interpretation. Eroded. Ridge and furrow, moat under vegetation. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA020	CH-02-151-F5	Built Heritage	Berkswell Grange	17th century grange with 19th century alterations. Red brick and timber frame at Balsall Common. The house faces onto Truggist Lane, with the building extending to the north. The house is a substantial building and retains its 17th century character. It lies within pleasant formal grounds and, despite its proximity to the road, retains a sense of seclusion.	Post-medieval	Listed Building	II	Moderate	1075947	N/A

Unique identifier	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance / value	NHL ref	HER ref
BHA021	CH-02-151-F3	Woodland	Rough Close	Contains three areas of ancient and semi-natural woodland and one area of replanted ancient woodland, east of Berkswell. The setting of this asset is the surrounding rural landscape, however the setting adds little to the significance of the asset. The setting has been eroded by the increase in agricultural land required in the 18th and 19th centuries. The significance of the asset lies in its historic and evidential value. The woodlands provide evidence of the former landscape of this area which was once dominated by the Forest of Arden. It also has historical value with the links with the Forest of Arden and could potentially contain evidence of early woodland activities such as charcoal making or small scale quarrying.	Post-medieval	Ancient Woodland	N/A	High	N/A	N/A
BHA022	CH-01-151b-C7	Archaeology	Dismantled Kenilworth to Balsall Common line	Kenilworth to Balsall Common branch of the LNWR, opened 2 March 1884, line lifted 1965. The setting of this asset is the rest of the LNWR and the landscape through which it cuts. As a railway line and a transport corridor, the setting of this asset will change throughout its route and it is this variety which contributes to the significance of the asset. The significance of the asset lies in its historic and evidential value as part of the rapidly developing transport network entering Birmingham, the railway helped to provide the impetus for the development of Birmingham during the industrial revolution. The railway also provides evidence of early transport planning and can provide information on railway construction techniques.	Post-medieval	Non-designated	N/A	Low	N/A	MSI6119
BHA023	CH-02-151-F7	Built Heritage	Barn at Barratts Lane Farm	17th century timber-framed barn with weather boarding. The barn is located adjacent to the farmhouse with which it forms a group. Despite the expansion of Balsall Common the complex retains its agricultural setting and remains in farming use.	Post-medieval	Listed Building	II	Moderate	1075970	N/A
BHA024	CH-01-151b-C4	Archaeology	Ridge and furrow	Located in fields between Spencers Lane and Truggist Lane, Carol Green, Berkswell. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	MSI6152
BHA025	CH-02-151-F7	Built Heritage	Barratts Lane Farmhouse	17th century two-storey timber-framed farmhouse. The farmhouse remains in agricultural use and forms an interesting group alongside the adjacent barn. The landscape setting remains legible, despite the encroachment of Balsall Common.	Post-medieval	Listed Building	II	Moderate	1045801	N/A
BHA026	CH-02-151-F5	Built Heritage	Moat House	Two storey 17th century timber-framed farmhouse with brick noggin. The house lies within the hamlet of Carol Green, but is located away from the road, surrounded by fields. The house itself has extensive landscaped gardens and forms a group with the Barn at Moat House to the north. The historic setting of the building has been impacted by an electricity pylon in close proximity to the house.	Post-medieval	Listed Building	II	Moderate	1343255	N/A
BHA027	CH-02-151-F5	Built Heritage	Barn at Moat House	17th century timber-framed barn with brick noggin. The barn is located to the north of Moat House, but the relationship has been lost with its conversion to residential use. The barn is surrounded by agricultural fields, but now forms part of a landscape garden, at odds with its historic function.	Post-medieval	Listed Building	II	Moderate	1054777	N/A
BHA028	CH-02-151-F7	Built Heritage	Barn at 85, Meeting House Lane	17th century barn with 19th century extension. The barn has been absorbed by the expansion of Balsall Common and it now forms part of a streetscape of detached late 20th century buildings. Its relationship with No85 has been retained.	Post-medieval	Listed Building	II	Moderate	1076673	N/A
BHA029	CH-02-151-F7	Built Heritage	85, Meeting House Lane	Early 17th century timber-framed building with 18th and 20th century alterations. The building has been absorbed by the expansion of Balsall Common and it now forms part of a streetscape of detached late 20th century dwellings. Its relationship with the adjacent barn has been retained.	Post-medieval	Listed Building	II	Moderate	1076672	N/A
BHA030	CH-02-151-F7	Built Heritage	Outbuilding approx. 5m east of no. 83 Meeting House Lane (not included)	17th century timber-framed outbuilding. In use as a garage. The building has been absorbed by the expansion of Balsall Common and it now forms part of a streetscape of detached late 20th century dwellings.	Post-medieval	Listed Building	II	Moderate	1253080	N/A
BHA031	CH-02-151-F4	Built Heritage	Meadow House	17th century timber framed dwelling, altered in the 18th century with red brick. Typical of its date and function and retains its rural setting, located away from the road surrounded by agricultural fields.	Post-medieval	Listed Building	II	Moderate	1075944	N/A
BHA032	CH-02-151-F7	Built Heritage	Pool Orchard	Timber-framed, two-storey 17th century house with later extension. Despite the encroachment of Balsall Common, the cottage retains its rural character.	Post-medieval	Listed Building	II	Moderate	1343233	N/A

Unique identifier	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance / value	NHL ref	HER ref
BHA033	CH-01-151b -B6	Archaeology	Ridge and furrow	East of Berkswell House, Berkswell. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape during this period. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	MSI8868
BHA034	CH-01-151b -A5	Archaeology	Possible moat or boundary	Feature identified through aerial photography interpretation. Eroded curvilinear feature, possible boundary or could be a much eroded moat.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA035	CH-01-152 -H9	Archaeology	Medieval fields	Feature identified through aerial photography interpretation. Eroded-ridge and-furrow. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA036	CH-01-151b -A3	Archaeology	Ridge and furrow	South-east of Yew Tree Farm, Benton Green. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	MSI10905
BHA037	CH-02-151 -E7	Built Heritage	The Brickmakers Arms Public House	Typical 17th century timber-framed public house with red brick noggin. Situated on one of the main routes into the village. The setting of the building has been eroded by a modern housing estate, but the building remains in use as a public house.	Post-medieval	Listed Building	II	Moderate	1367067	N/A
BHA038	CH-02-151 -F9	Built Heritage	Cottage Farmhouse	Large 18th century red brick dwelling, substantially extended. Located within large gardens away from the main settlement of Balsall Common, with similar properties nearby.	Post medieval	Listed Building	II	Moderate	1054081	N/A
BHA039	CH-02-151 -E7	Built Heritage	Berkswell Railway Station	Railway station serving Berkswell. The building is now longer in use, with 20th century ancillary structures to the north; however, it retains its relationship with the railway which runs to the north.	20th century / modern	Non-designated	N/A	Low	N/A	MSI6048
BHA040	CH-01-152 -I2	Archaeology	Medieval fields and ridge and furrow north of Shadow Brook and Diddington Hall	Feature identified through aerial photography interpretation. Extant ridge and furrow. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA041	CH-01-151b -A4	Archaeology	Possible Hay Stack Stand	Ditches and banks south-east of Rams Hall. The significance of this asset lies in its historical value in providing supporting evidence for the primarily rural and agricultural economy of the study area in the medieval and post-medieval periods.	Medieval	Non-designated	N/A	Low	N/A	MSI1310
BHA042	CH-01-151b -A8	Archaeology	Ridge and furrow	South-west of station, Balsall Common. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	MSI8807
BHA043	CH-01-152 -H5	Archaeology	Medieval fields and ridge and furrow around Ram Hall and Lavender Hall	Eroded ridge and furrow, with some extant adjacent to Ram Hall and Lavender Hall. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA044	CH-01-152 -I5	Archaeology	Ridge and furrow	South-east of Ram Hall Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	MSI8863

Unique identifier	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance / value	NHL ref	HER ref
BHA045	CH-01-152-H5	Archaeology	Moat	Rectangular well-preserved moat, Ram Hall, Berkswell, measures 10-12m by 1-2m, surrounds a 17th century house. The setting of this asset encompasses the other moated sites in the study area and includes the agricultural land surrounding it. The setting contributes to the significance of the asset. The significance of this asset lies in its archaeological evidential and historic value. The study area contains a number of moats and this example has the potential to add information on construction techniques, the social hierarchy of this area during the medieval period and the utilisation of land. There is the potential for environmental evidence to survive in any waterlogged areas of the former moat which give evidential value and can provide information on the diet and agricultural regime of the surrounding landscape. The moat has historical value in the addition to the historical narrative of the area and the further evidence it could provide for why this area was such a draw for the constructors of moats in the medieval period.	Medieval	Non-designated	N/A	Low	N/A	MSI3133
BHA046	CH-02-151-E6	Built Heritage	Ram Hall	16th century double pile hall at Balsall Common. Red brick with sandstone ashlar façade. The hall has significance as an early example of its type which survives relatively unchanged and within its historic setting. Alongside the adjacent barn, (BHA047), the hall forms an important historic group. Despite the addition of modern farm structures to the north, the rural agricultural landscape setting remains intact enabling an appreciation of the building within its landscape context.	Post-medieval	Listed Building	II*	High	1045806	N/A
BHA047	CH-02-152-J5	Built Heritage	Barn at Ram Hall	17th century timber frame barn with brick noggin, at Balsall Common. The barn and hall (BHA046) represent an important historic group which retain their agricultural setting.	Post-medieval	Listed Building	II	Moderate	1343234	N/A
BHA048	CH-01-152-G10	Archaeology	Medieval fields	Feature identified through aerial photography interpretation. Eroded ridge and furrow, now built over. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA049	CH-01-152-H6	Archaeology	Ridge and furrow located to the west of Ram Hall	West of Ram Hall. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value its contribution to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval to 20th century / modern	Non-designated	N/A	Low	N/A	MSI8862
BHA050	CH-01-153-C7	Important hedgerow	West of Diddington Lane, south of Shadow Brook. 235m long. 1-2m high. Associated with ridge and furrow near Diddington Hall	Hedgerow located to the west of Diddington Lane, south of Shadow Brook. 235m long. 1-2m high. Associated with ridge and furrow near Diddington Hall. Significance of this asset lies in its evidential and historic value. The line and archaeological associations of important hedgerows provide information on historic field systems and can provide information on the division and utilisation of land from the early medieval to the post-medieval. They also have aesthetic and historic value in the preservation of historic landscapes and the value they add to the legibility and ability to understand the evolution of the landscape.	Medieval/post-medieval	Important hedgerow (historic criteria)	N/A	Moderate	N/A	N/A
BHA051	CH-02-151-F9	Built Heritage	Stables at Frogmore	Early 18th century stables at Frogmore Grange. The stables form an interesting group with the adjacent house. The complex lies on the edge of the modern settlement within formal gardens. Any evidence of former parkland has been eroded by agricultural activity.	Post medieval	Listed Building	II	Moderate	1075988	N/A
BHA052	CH-02-151-F9	Built Heritage	Frogmore Grange	Early 19th century red brick grange with classical detailing. The house forms an interesting group with the adjacent stables. The complex lies on the edge of the modern settlement within formal gardens. Any evidence of former parkland has been eroded by agricultural activity.	Post medieval	Listed Building	II	Moderate	1054079	N/A
BHA053	CH-01-152-H4	Archaeology	Ridge and furrow	West of Priory Orchard, Berkswell. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	MSI8844
BHA054	CH-02-151-E8	Built Heritage	The Homestead	Restored 17th century timber-framed dwelling of two storeys. The building is set back from the street, surrounded by 20th century development.	Post-medieval	Listed Building	II	Moderate	1187144	N/A

Unique identifier	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance / value	NHL ref	HER ref
BHA055	CH-02-151-E8	Built Heritage	Templars Croft	Single-storey 17th century timber-framed cottage. The building is set back from the street, surrounded by 20th century development.	Post-medieval	Listed Building	II	Moderate	1075992	N/A
BHA056	CH-02-151-E8	Built Heritage	Barn at Balsall Street Farm	17th century timber-framed barn with thatched roof. The barn is fronted by converted 19th century outbuildings and while the house has been retained, the complex is no longer in agricultural use due in part to the encroachment of the modern settlement into its setting.	Post-medieval	Listed Building	II	Moderate	1075979	N/A
BHA057	CH-01-152-H3	Archaeology	Ridge and furrow	Prominent earthwork north of Priory Orchard, Berkswell. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	MSI8843
BHA058	CH-02-151-E7	Built Heritage	Lavender Hall Farmhouse	16th century hall at Balsall Common, with 17th century alterations. Red brick rising over two storeys plus attic. The farmhouse forms a group with the adjacent barn. The pair form a significant survival of an early complex which remains relatively unaltered. The outbuildings are now in light industrial use with vacant land behind. The agricultural setting of the farm has been eroded by the West Coast Mainline which runs directly to the southwest. Fragments of the historic setting survive to the north.	Post-medieval	Listed Building	II*	High	1075943	N/A
BHA059	CH-02-152-J6	Built Heritage	Barn at Lavender Hall Farm	17th century timber-framed barn with red brick noggin, at Balsall Common. Located alongside the earlier hall, the barn forms part of the former farm complex and is prominent in views along Lavender Hall Lane. The transition of the site to light industrial use has removed much of this context; however, the agricultural setting remains legible to the north.	Post-medieval	Listed Building	II	Moderate	1054821	N/A
BHA060	CH-01-152-F1	Archaeology	Medieval fields	Feature identified through aerial photography interpretation. Eroded ridge and furrow visible as faint crop and grass marks on current photographs. BHA061	CH-01-152-G4	Archaeology	Ridge and furrow	Between Lavender Hall Lane and Spencers Lane, Berkswell. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval to 20th century / modern	Non-designated	N/A	Low	N/A	MSI1322
BHA062	CH-01-152-F7	Archaeology	Medieval fields and ridge and furrow west of Berkswell	Feature identified through aerial photography interpretation. Eroded ridge and furrow. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA063	CH-01-52-E6	Archaeology	Medieval deer park and park pale of Berkswell Estate	Berkswell Estate, mentioned from 1300's onwards, original extent unknown, pale exists as slight bank with occasional traces of a ditch, bank has maximum width of 3m and average height of 1.2m, internal ditch is 4m wide. The setting of this asset is the village of Berkswell, the remaining buildings within the Berkswell Estate and the agricultural landscape surrounding the park which once formed part of the wider estate. The setting of this asset contributes to its significance. The significance of this asset lies in its historic and evidential value. As a former deer park, it has the potential to contribute towards thematic studies on the set aside of valuable agricultural areas for leisure activities during the medieval period. The park also has evidential value in what it can reveal about social hierarchy and the Berkswell Estate itself.	Medieval	Non-designated	N/A	Moderate	N/A	MSI3052
BHA064	CH-02-151-E9	Built Heritage	Hobbe Cottage	Single-storey timber-framed thatched cottage. Typical 17th century cottage which survives intact. The building makes an interesting contribution to the streetscape which is now dominated by mid- to late 20th century dwellings.	Medieval	Listed Building	II	Moderate	1075980	N/A

Unique identifier	Map reference	Asset type	Name	Description	Period	Designation	Grade	Significance / value	NHL ref	HER ref
BHA065	CH-01-152-G2	Conservation Area	Berkswell Conservation Area	Attractive village dominated by Berkswell Hall and parkland (although outside the designated area). Within the village is an important collection of buildings dating from the 16th to 19th century which give it its unique character and add to its significance. The low density of buildings is complemented by the high proportion of green space within the village boundaries, reinforcing a connection with the surrounding parkland. Aside from the village green there are significant areas of tree planting, particularly along Meriden Road and Lavender Hall Lane. These create a strong sense of enclosure within the village, with little intervisibility with the wider landscape, enhancing its village quality.	Medieval to-post medieval	Conservation Area	N/A	Moderate	N/A	N/A
BHA066	CH-01-152-F3	Settlement	Berkswell Settlement	Once known as Berculswell/Berchewelle. The significance of this settlement is the legibility of the medieval core of the village and the surviving associations with the deer park at Berkswell Estate and the medieval elements of the town including the church, well and surviving 16th century buildings. The village can provide historical information on the development of a medieval town and the relationship between an estate and its village.	Medieval	Non-designated	N/A	Low	N/A	MSI5817
BHA067	CH-01-152-G5	Woodland	Church Woods South	Ancient and semi-natural woodland, south of Berkswell. The setting of this asset is the surrounding rural landscape, however the setting adds little to the significance of the asset. The setting has been eroded by the increase in agricultural land required in the 18th and 19th centuries. The significance of the asset lies in its historic and evidential value. The woodlands provide evidence of the former landscape of this area which was once dominated by the Forest of Arden. It also has historical value with the links with the Forest of Arden and could potentially contain evidence of early woodland activities such as charcoal making or small scale quarrying.	Post-medieval	Ancient Woodland	N/A	High	N/A	N/A
BHA068	CH-01-152-G8	Archaeology	Ridge and furrow west of Lavender Hall	West of Lavender Hall, Berkswell. Eroded ridge and furrow, possible traces of steam ploughing visible 1985 but not visible on current photographs. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval and Post medieval	Non-designated	N/A	Low	N/A	N/A
BHA117	CH-02-151-C4	Built Heritage	Four Oaks Farmhouse	19th century red brick two storey farmhouse with some modernisation. The significance of the house is enhanced by the survival of its timber-framed barn. The farmhouse retains its agricultural setting surrounded by open fields.	Post-medieval	Listed Building	II	Moderate	1054829	N/A
BHA118	CH-02-151-C5	Woodland	The Bogs North	Ancient replanted woodland, north-east of New Mercote Farm. The setting of this asset is the surrounding rural landscape, however the setting adds little to the significance of the asset. The setting has been eroded by the increase in agricultural land required in the 18th and 19th centuries. The significance of the asset lies in its historic and evidential value. The woodlands provide evidence of the former landscape of this area which was once dominated by the Forest of Arden. It also has historical value with the links with the Forest of Arden and could potentially contain evidence of early woodland activities such as charcoal making or small scale quarrying.	Post-medieval	Ancient Woodland	N/A	High	N/A	N/A
BHA119	CH-01-152-D8	Archaeology	Ridge and furrow	Mercote Farm, Berkswell. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval to 20th century / modern	Non-designated	N/A	Low	N/A	MSl1318
BHA120	CH-01-152-C5	Woodland	The Bogs	Ancient replanted woodland, north of New Mercote Farm. The setting of this asset is the surrounding rural landscape, however the setting adds little to the significance of the asset. The setting has been eroded by the increase in agricultural land required in the 18th and 19th centuries. The significance of the asset lies in its historic and evidential value. The woodlands provide evidence of the former landscape of this area which was once dominated by the Forest of Arden. It also has historical value with the links with the Forest of Arden and could potentially contain evidence of early woodland activities such as charcoal making or small scale quarrying. BHA144	CH-02-151-B8	Built Heritage	Packhorse Bridge over River Blythe	15th century five-span bridge with cutwaters. The bridge is of historic and architectural value and remains in use as a right of way for foot traffic. The setting has been altered with the addition of the present West Coast Main Line which runs adjacent to it.	Medieval	Scheduled Monument and Listed Building	II*	High	1003653/1345569	N/A
BHA145	CH-01-153-H9	Archaeology	Cropmarks	North-east of Packhorse Bridge, Hampton-in-Arden, possibly old stream line, old field boundaries or enclosures. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Neolithic to post-medieval	Non-designated	N/A	Low	N/A	MSI6961
BHA146	CH-02-152-G5	Built Heritage	Hornbrook Farmhouse	17th century farmhouse. Timber-framed with brick noggin. The house, alongside the listed barn, lies on a piece of land between the A452 and Cornets End Lane and, although no longer in farm use, retain their agricultural setting.	Post-medieval	Listed Building	II	Moderate	1054864	N/A
BHA147	CH-02-152-G5	Built Heritage	Barn at Hornbrook Farm	17th century timber-framed barn. The barn forms a group with the farmhouse, situated on a piece of land between the A452 and Cornets End Lane. Although no longer in farm use, retain their agricultural setting.	Post-medieval	Listed Building	II	Moderate	1343253	N/A
BHA148	CH-01-153-G8	Archaeology	Ridge and furrow, drains or water meadows	Feature identified through aerial photography interpretation. Remains of field drainage system or possible water meadows. Eroded but partially extant. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval and Post medieval	Non-designated	N/A	Low	N/A	N/A
BHA149	CH-01-153-F3	Archaeology	Cropmarks representing a possible Iron Age Field system south of the B4102, Hampton Lane	Possible remains of field system covering four fields south of B4102, between Meriden/Hampton-in-Arden, to north and south of possible hillfort. The significance of this asset lies in its archaeological and evidential value. Evidence for Iron Age activity is relatively rare within the study area and this can help to provide information on the social structure, utilisation of the landscape and division of land. There is also the potential for the discovery of material evidence which can add information into the historic narrative of the area. The link with the possible hillfort indicates this could be a substantial settlement which adds to the significance if the asset.	Iron Age	Non-designated	N/A	Moderate	N/A	MSI6405
BHA150	CH-01-153-F3	Archaeology	Possible Iron Age hillfort at Hampton Lane	Possible ploughed-out hillfort across two fields, Hampton Lane, between Meriden and Hampton-in-Arden. The setting of this asset is the hilltop upon which it was deliberately sited and the views afforded from the summit, which add to the significance of the asset. The significance lies in its archaeological and evidential value in the information it can provide on defensive design and construction during the Iron Age and the utilisation of the landscape. There is also the possibility of material evidence which can provide information on Iron Age society and the social hierarchy of the area. The asset has historic value in providing evidence of Iron Age occupation in an area which is distinctly lacking in prehistoric archaeology.	Iron Age	Non-designated	N/A	Moderate	N/A	MSI1678
BHA151	CH-01-153-G9	Archaeology	Cropmarks	East of Siden Hill Wood, Hampton-in-Arden. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period	Neolithic to post medieval	Non-designated	N/A	Low	N/A	MSI8851
BHA152	CH-01-153-E3	Archaeology	Ring ditch and linear ditches	Feature identified through aerial photography interpretation. Eroded ring ditch which shows as a mark in crops alongside extensive linear ditches. Ring ditch may be an eroded Bronze Age round barrow (burial mound), lies close to pit alignment BHA160. Significance lies in the archaeological and evidential value of the asset and the information it can provide for Iron Age or Bronze Age society and the utilisation and division of land. There is the possibility for the removal of material which could provide evidence for diet and environmental factors in this area during this time. The asset has historic value in the evidence it can provide of settlement and activity during a period which is relatively unknown in this area.	Prehistoric to Romano-British	Non-designated	N/A	Moderate	N/A	N/A

BHA153	CH-01-153-C5	Important hedgerow	South of Diddington Hall. 1-2m in height with surviving ditch. Associated with ridge and furrow and field systems of Diddington Hall	Hedgerow 100m long located south of Diddington Hall. 1-2m in height with surviving ditch. Associated with ridge and furrow and field systems of Diddington Hall. Significance of this asset lies in its evidential and historic value. The line and archaeological associations of important hedgerows provide information on historic field systems and can provide information on the division and utilisation of land from the early medieval to the post-medieval. They also have aesthetic and historic value in the preservation of historic landscapes and the value they add to the legibility and ability to understand the evolution of the landscape.	Medieval/post-medieval	Important hedgerow (historic criteria)	N/A	Moderate	N/A	N/A
BHA154	CH-01-153-E1	Archaeology	Polygonal ditched enclosure, medieval fields, doubled-ditched enclosure	Feature identified through aerial photography interpretation. Destroyed crop marked remains of a polygonal ditched early medieval enclosure, medieval ridge and furrow and an 18th century double ditched enclosure. Excavated in 1987 in advance of sand and gravel extraction. The asset has archaeological and evidential value which can contribute to the significance of the asset. It can provide evidence for medieval agricultural techniques and the utilisation of the land. It also provides evidence of the widespread nature and the agrarian based economy of this period.	Early medieval to post-medieval	Non-designated	N/A	Moderate	N/A	N/A
BHA155	CH-01-153-G9	Woodland	Siden Hill Wood	Ancient & semi-natural woodland, south-east of Hampton-in-Arden. The setting of this asset is the surrounding rural landscape, however the setting adds little to the significance of the asset. The setting has been eroded by the increase in agricultural land required in the 18th and 19th centuries. The significance of the asset lies in its historic and evidential value. The woodlands provide evidence of the former landscape of this area which was once dominated by the Forest of Arden. It also has historical value with the links with the Forest of Arden and could potentially contain evidence of early woodland activities such as charcoal making or small scale quarrying.	Post-medieval	Ancient Woodland	N/A	High	N/A	MSI4579
BHA156	CH-01-153-E2	Archaeology	Ring Ditch	Part of a series of complex cropmarks, south of B4102 Hampton Lane, between Meriden and Hampton-in-Arden. Significance lies in the archaeological and evidential value of the asset and the information it can provide for Iron Age to Neolithic society and the utilisation and division of land during these periods. There is the possibility for the removal of material which could provide evidence for diet and environmental factors in this area during this time. The asset has historic value in the evidence it can provide of settlement and activity during a period which is relatively unknown in this area.	Neolithic to Iron Age	Non-designated	N/A	Moderate	N/A	MSI6403
BHA157	CH-01-153-E3	Archaeology	Barrow	Ploughed-out mound, part of a complex series of cropmarks, south of B4102 between Meriden and Hampton-in-Arden. Significance lies in the archaeological and evidential value of the asset and the information it can provide for Iron Age to Neolithic society and the utilisation and division of land during these periods. In particular, the barrow can provide evidence for funerary monuments and provide information on the position of these monuments within this area. There is the potential for the recovery of material evidence which could provide information on ritual activity and social function of the barrow.	Neolithic to Iron Age	Non-designated	N/A	Moderate	N/A	MSI6404
BHA158	CH-01-153-E2	Archaeology	Ring Ditch	Part of a series of complex cropmarks, south of B4102, between Meriden and Hampton-in-Arden. Significance lies in the archaeological and evidential value of the asset and the information it can provide for Iron Age to Neolithic society and the utilisation and division of land during these periods. There is the possibility for the removal of material which could provide evidence for diet and environmental factors in this area during this time. The asset has historic value in the evidence it can provide of settlement and activity during a period which is relatively unknown in this area. BHA160	CH-01-153-E2	Archaeology	Pit alignment	Feature identified through aerial photography interpretation. Linear row of eroded pits shows as marks in crops. Area now re-developed as a golf course. May be linked to BHA152 to the immediate south. The significance of this asset lies in its archaeological and evidential value in the evidence it can provide for activity during the prehistoric period which is under-represented in the study area. It can provide evidence of the utilisation of the landscape and the division of land during this period and any material evidence can be used to provide evidence for the social status of the inhabitants and provide detail to the historic narrative of the area.	Possible prehistoric	Non-designated	N/A	Moderate	N/A	N/A
BHA161	CH-01-153-E2	Archaeology	Pit alignment	Pit alignment 1.6km west of Meriden. The significance of this asset lies in its archaeological and evidential value in the evidence it can provide for activity during the prehistoric period which is under-represented in the study area. It can provide evidence of the utilisation of the landscape and the division of land during this period and any material evidence can be used to provide evidence for the social status of the inhabitants and provide detail to the historic narrative of the area.	Prehistoric	Non-designated	N/A	Low	N/A	MSI14000
BHA162	CH-01-153-F10	Archaeology	Medieval fields	Feature identified through aerial photography interpretation. Extant ridge and furrow. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA163	CH-01-153-E6	Archaeology	Ridge and furrow	Patrick Farm, Hampton-in-Arden. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval to 20th century / modern	Non-designated	N/A	Low	N/A	MSI1338
BHA164	CH-01-153-E5	Archaeology	Meriden Watermill	Site of Meriden Mill, Meriden, possibly connected with manor of Hampton-in-Arden, operated until c. 1916, building now used as a store and manufactory of fish farming equipment. The significance of this asset lies in its evidential value. It provides evidence of the development of early industry and can provide information into developing industrial technology. The link with the manor of Hampton in Arden indicates that the setting of the asset also encompasses this area and has historic value as part of the narrative history of the area.	Post-medieval to 20th century / modern	Non-designated	N/A	Low	N/A	MSI3112
BHA165	CH-01-153-E4	Archaeology	Ridge and furrow	Meriden Mill Farm, Hampton-in-Arden. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval to 20th century / modern	Non-designated	N/A	Low	N/A	MSI1339
BHA166	CH-01-153-E7	Archaeology	Drains and possible water meadows south of the River Blythe and north of the B4102 Meriden Road	Feature identified through aerial photography interpretation. Eroded but partially extant drains which may be indicative of earlier water meadows. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Post medieval	Non-designated	N/A	Low	N/A	N/A
BHA167	CH-01-153-F9	Archaeology	Possible Enclosure, Long Barrow, Pillow Mound	A long, thin, rectangular cropmark in field, north-west of Siden Hill Wood, Hampton-in-Arden, possibly a long barrow or pillow mound. This grouping of assets dating from the prehistoric to the medieval period has significance in their archaeological, evidential and historic value. The continued use of this landscape can provide information into the utilisation and land division of this area and the development of agricultural techniques. The possible long barrow also indicates the possible funerary or ritual use of this landscape and the comparison between the two and any deliberate separation would add to the evidential value of the asset.	Neolithic to medieval	Non-designated	N/A	Low	N/A	MSI6962
BHA168	CH-01-153-E9	Archaeology	Military	Feature identified through aerial photography interpretation. Possible military encampments now destroyed. The significance of this asset lies within its evidential, archaeological and historic value. The asset can provide evidence for military construction techniques and provide evidence into different types of encampment layout. There is historic value in the association with other military sites in the region.	20th century / modern	Non-designated	N/A	Low	N/A	N/A

BHA169	CH-01-153 -C5	Archaeology	Medieval fields, ridge and furrow and earthworks located around Diddington Hall	Feature identified through aerial photography interpretation. Eroded and partially extant ridge and furrow and earthworks, possible former garden at Diddington Hall. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape during this period. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval and post medieval	Non-designated	N/A	Low	N/A	N/A
BHA170	CH-02-152 -F5	Built Heritage	Meriden Mill Farmhouse	17th century timber-framed farmhouse with 19th century red brick additions. Brick outbuildings are located to the north, south and east of the main house with the grounds extending from the River Blyth to the south and Kenilworth Road to the north. The setting of the farm is degraded to some extent by the Hampton Lane roundabout which lies less than 200m to the southeast.	Post-medieval	Listed Building	II	Moderate	1031820	N/A
BHA171	CH-01-153 -D10	Archaeology	Ridge and furrow	Feature identified through LiDAR analysis, centre of Hampton-in-Arden. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA172	CH-01-153 -F7	Archaeology	Ridge and furrow with a trackway located south of Patrick Farm	Feature identified through LiDAR analysis, south of Patrick Farm. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Unknown	Non-designated	N/A	Low	N/A	N/A
BHA173	CH-01-153 -D4	Built Heritage	Mouldings (Molands) Bridge	19th century two arch stone bridge with balustrade. The bridge carries the northbound carriageway of the A452 road over the River Blythe. A modern bridge carries the southbound carriageway. The bridge continues to function, but its setting has been affected by the dualling of the road and the high levels of traffic which now use it.	Post-medieval to 20th century / modern	Non-designated	N/A	Low	N/A	MSI8839
BHA174	CH-01-153 -E9	Archaeology	Ridge and furrow	Hampton Storage Depot, Hampton-in-Arden. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval to 20th century / modern	Non-designated	N/A	Low	N/A	MSI1337
BHA175	CH-02-152 -F5	Built Heritage	Mouldings Green Farmhouse	17th century timber-framed farmhouse on stone base with significant later alteration. The farmhouse is now in use as offices, with the outbuildings converted to commercial use; however, the group remains a significant example of a former farm complex with tangible links to the open fields situated to the west.	Post-medieval	Listed Building	II	Moderate	1076767	N/A
BHA176	CH-01-153 -E9	Built Heritage	Ammunition Depot	Military site at Hampton-in-Arden, seven buildings associated with storage and distribution of anti-aircraft ammunition, built 1939. Four structures still survive, although in a poor condition, and the site is largely concealed by pallet storage.	20th century / modern	Non-designated	N/A	Low	N/A	MSI1336
BHA177	CH-01-153 -B8	Archaeology	Headland earthworks identified west of Diddington Lane and south of the Shadow Brook	Feature identified through LiDAR analysis, west of Diddington Land, south of Shadow Brook. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. BHA179	CH-02-152-E8	Conservation Area	Hampton-in-Arden	Hampton-in-Arden lies within an open rural landscape with the attractive greenspace within the village contributing to the smooth transition between the settlement and its wider context. The village was substantially altered by the architect Nesfield resulting in a distinct built form. The resulting built-up streetscapes and enclosed views has resulted in little interaction with the surrounding landscape. Instead, the setting of the majority of the village is tied to the manor house, enabling an appreciation of the historic relationship of the settlement with the Peel family.	Medieval to post-medieval	Conservation Area	N/A	Moderate	N/A	N/A
BHA180	CH-01-153-D5	Archaeology	Ridge and furrow	South-west of Mouldings Green Farm, Hampton-in-Arden. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period. BHA216	CH-02-152-E5	Built Heritage	Diddington Hall	Two storeys and red brick with sandstone dressings dating to the late 16th century with 19th century alterations. The hall is significant as it retains a significant amount of early fabric, despite its conversion to school use. The main house faces to the east with a range of outbuildings enclosing it to the north. Access is provided from both Diddington Lane and the A452 and these two roads largely define its boundaries, with open greenspace and fields surrounding it. This rural setting makes an important contribution to its setting. The building is also well screened, with the natural topography shielding it from view to the west. The relationship of the hall to Diddington Farmhouse forms an important part of its group value.	Post-medieval	Listed Building	II*	High	1055738	N/A
BHA217	CH-01-153-C8	Archaeology	Ridge and furrow	Feature identified through LiDAR analysis, west of Diddington Lane, Hampton-in-Arden. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	MSI6955

BHA230	CH-01-154-H8	Archaeology	Middle Bickenhill Manor	Founded as secondary colony settlement of Bickenhill but still associated with the main manor. The homesteads were situated in a linear arrangement along Middle Bickenhill Lane and the settlement has shrunk from its original extents. The significance of this asset lies in its associations with the manor(s) of Bickenhill and Hill Bickenhill and the evidence it can provide for the layout of medieval settlements and the distribution of land during this period. The archaeological evidence from this settlement can provide information on the material culture of the settlement. .	Medieval	Non-designated	N/A	Low	N/A	MSI10504
BHA231	CH-01-154-L1 -H1	Archaeology	Line of earlier road from Church Bickenhill to Stonebridge Road	Earlier road line from Church Bickenhill to Stonebridge & Meriden, Bickenhill, crossed by the M42. The significance of this asset lies in the evidence it provides of the early road network in the area and provides information on the evolution of the transport network. It can also provide archaeological evidence for any possible earlier roads which may have been superseded by the construction of this later version.	Medieval	Non-designated	N/A	Low	N/A	MSI10828
BHA232	CH-01-153-C6	Important hedgerow	South of Diddington Hall abutting the A452. 1-2m in height. Associated with ridge and furrow and field systems of Diddington Hall	Hedgerow 100m long located south of Diddington Hall abutting the A452. 1-2m in height. Associated with ridge and furrow and field systems of Diddington Hall. Significance of this asset lies in its evidential and historic value. The line and archaeological associations of important hedgerows provide information on historic field systems and can provide information on the division and utilisation of land from the early medieval to the post-medieval. They also have aesthetic and historic value in the preservation of historic landscapes and the value they add to the legibility and ability to understand the evolution of the landscape.	Medieval/post-medieval	Important hedgerow (historic criteria)	N/A	Moderate	N/A	N/A
BHA233	CH-01-151b - D5	Archaeology	Ridge and furrow	Feature identified through LiDAR analysis, east of Beechwood Farm. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Unknown	Non-designated	N/A	Low	N/A	N/A

BHA234	CH-01-151b - D6	Archaeology	Ridge and furrow located to the south of Beechwood Farm	Feature identified through LiDAR analysis, south of Beechwood Farm. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Unknown	Non-designated	N/A	Low	N/A	N/A
BHA235	CH-01-151b - B6	Archaeology	Ridge and furrow located to the south of Truggist Lane	Feature identified through LiDAR analysis, south of Truggist Lane. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Unknown	Non-designated	N/A	Low	N/A	N/A
BHA236	CH-01-151b - C6	Archaeology	Ridge and furrow located to the west of Beechwood Farm	Feature identified through LiDAR analysis, west of Beechwood Farm. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Unknown	Non-designated	N/A	Low	N/A	N/A
BHA237	CH-01-151b - B5	Archaeology	Ridge and furrow	Feature identified through LiDAR analysis, north of Truggist Lane. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA238	CH-01-151b - A6	Archaeology	Ridge and furrow	Feature identified through LiDAR analysis, north of Truggist Lane. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA239	CH-01-151b - A7	Archaeology	Garden & Ridge and furrow associated with Berkswell House	Identified on mapping and through LiDAR analysis, south of Truggist Lane. The setting of this asset is Berkswell House, around which the garden was designed and laid out. The significance of the asset lies in its evidential and aesthetic value. Although there is evidence for agricultural activity in the ridge and furrow, this now lies within an ornamental and recreational landscape and provides evidence for the procurement of agricultural land for domestic use. The asset has historic value in its continued appearance on historic mapping from the early 20th century where the boundaries have remained unchanged.	20th century / modern	Non-designated	N/A	Low	N/A	N/A
BHA240	CH-01-152-H6	Archaeology	Ridge and furrow between Lavender Hall and Ram Hall	Feature identified through LiDAR analysis, between Lavender Hall and Ram Hall. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Medieval	Non-designated	N/A	Low	N/A	N/A
BHA241	CH-01-152-l7	Archaeology	Ridge and furrow located to the north-east of Berkswell Railway Station	Feature identified through LiDAR analysis, north-east of Berkswell Station. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.	Unknown	Non-designated	N/A	Low	N/A	N/A
BHA242	CH-01-152-J8	Archaeology	Ridge and furrow	Feature identified through LiDAR analysis, west of Sunnyside Farm. Significance lies in its archaeological and evidential value and the information the asset can provide on agricultural regimes of medieval and post-medieval society in this period and the utilisation and division of the landscape. There is also historic value in the knowledge of the asset as it contributes to the historic narrative and demonstrates occupation and use of this area during the medieval and post-medieval period.
